SUBJECT: Thank You for Amazing Service.

Mark, Bryan

Re: Fort Modular supply and installation of a new built 10'x24' modular Learning Assistance classroom.

On behalf of the Abbotsford School District I would like to thank Fort Modular for excellence in attention to customer service while custom building and installing a Learning Assistance classroom for a small rural school.

Fort Modular's ease to work with, continuous open lines of communication, and attention to detail was all appreciated by Abbotsford School District as we in turn realized a great product, very reasonably priced and custom built just as we had requested.

Thanks Again
Kenyon Clarke
